

## **We need Medical Doctors, Surgeons, Anesthetists and Gynecologists for our missions abroad**

**Médecins Sans Frontières (MSF)** is an international, independent, medical humanitarian organisation that delivers emergency aid to people affected by armed conflict, epidemics, natural disasters and exclusion from healthcare. MSF offers assistance to people based on need, irrespective of race, religion, gender or political affiliation.

MSF is actively recruiting **Medical Doctors, Surgeons, Anesthetists and Gynecologists** for our **medical aid operations throughout the entire world** as well as **emergency surgical projects**. Working in the field for MSF is a challenge. International fieldwork will give you the possibility to assist people in need in a very constructive and concrete way. Your contribution will be important for our mission, thus also contribute to your own development professionally and personally.

### **General requirements:**

- Degree in Medicine
- Minimum two years of relevant professional experience post-qualification
- Fluency in English; knowledge of French / Arabic is also desirable
- Understanding of and commitment to the [Charter of MSF](#)
- Experience in supervising, training and managing others
- Ability to work with limited technical resources
- Willingness to work in potentially unstable environments

### **Availability requirements:**

- **Surgeons, Anesthetists & Gynecologists** : Availability for a minimum of 2 months
- **Medical Doctors:** Availability of 9-12 months

### **Specialty-specific requirements:**

- **Medical Doctors:** experience working with HIV or Tuberculosis or any other infectious diseases, or proven experience of working in primary healthcare guards and emergency room.
- **Surgeons:** experience in all types of surgical interventions as well as in Caesarean sections. Experience in performing minor and major surgeries, which are often violence related (e.g. gunshots, spear wounds).
- **Anesthetists:** Experience in paediatric, obstetric and trauma anesthesia, including anesthesia with intubation. Experience in dissociation anaesthesia (e.g. Ketamine). Extensive experience in spinal anaesthesia. For more information, please visit <http://www.anesthesiologist.msf.org>
- **Gynecologists:** experience in all types of deliveries, including all complicated cases and Caesarean sections. Experience in elective obstetric/gynaecologic and emergency surgeries as well as in pre and post-operative management (especially fluid and pain management). For more information, please visit <http://www.obstetrician-gyneco.msf.org>

If you wish to work with MSF in the field, please submit your application online through the following link: <http://cv.msf.es/en/msf-cv-forms/form-001/gr> or click [here](#) to visit our website.

### **What we offer:**

- Legal contract for the duration of the mission
- Pay in accordance with the MSF salary policy
- International medical insurance coverage (including medical evacuation coverage)
- Travel costs, accommodation and a daily per diem (for food and minor expenses) according to the destination country
- The opportunity to become part of the MSF mission and to provide life-saving medical assistance to people who would otherwise be denied access to healthcare.
- The chance to gain experience and professional development in an international organisation.
